

Invitation:

“Europe and Coronavirus – Online Citizens’ Meeting – Online Citizens’ Discussion”

Dear fellow Europeans,
the Coronavirus confronts Europe with huge challenges – but there are also new chances.
We’d like to discuss this together, online. Key questions are:

- How can European countries financially support each other?
- How can we engage with the European public?
- How can we get many Europeans from different EU countries to take part in our upcoming online discussions?

Everyone can participate, through speech or writing. The standard language will be German, but we will provide translations into English, French, Polish and Spanish! Everyone can join the discussion in their native language!

You are cordially invited to join our discussion. Log on!
